Web developer seeking a challenging position to grow my knowledge and skills while contributing to the growth and success of my employer.

Experience

Test Technician, Sr. Qualcomm Inc. (Mar 2014-Oct 2014)

I was responsible for executing scripted software test procedures. Loading device and driver software, verifying proper operation and network registration, tracking issues, assisting software team in categorizing issues, and gathering data for weekly reports.

SEO Internship, Hera Hub (Mar 2016- Jun 2016)

I was responsible for analyzing the website traffic, categorizing the blog posts and finding the evergreen posts, monitoring Google analytics and measure the impact of the changes, delivering monthly progress reports.

Technical Skills

React, Node.js, Express, MongoDB, JavaScript, jQuery, Bootstrap, Github, MySQL, Firebase, HTML, CSS, APIs, JSON, REST, AJAX, CLI, Debugging, JIRA.

Projects

Amazon Gift Registry:

A wish list app, built using react.js, amazon product API , node.js, express.js and mySQL following the MVC pattern.

<http://goldenspoon.herokuapp.com/> | <https://github.com/lubnaqadah/SilverSpoon>

Fantasy Team:

An interactive soccer fantasy team game that lets users create a team, play a game, gain points and improve their team.

<https://lubnaqadah.github.io/MemoryGame/> | <https://github.com/lubnaqadah/MemoryGame>

Reading Club:

A book club app, built using react.js, node.js, express.js and mongoDB following the MVC pattern.

<https://readclub.herokuapp.com/> | <https://github.com/lubnaqadah/readingClub>
